

Howard Frankland Bridge

FDOT is rebuilding the existing northbound bridge, which was originally constructed in 1960, and adding capacity to alleviate traffic congestion.

The most recent plan for the Howard Frankland Bridge was announced in early 2017. Since that time, the Florida Department of Transportation conducted public outreach as part of the Tampa Bay Next process and gathered valuable input to enhance the project.

You Talked. We Listened.

The community has made it clear that they want:

- ◆ **infrastructure that can accommodate transit**, with flexibility across modes
- ◆ **safety to be a top priority**, including **incident management** and **evacuation preparedness**
- ◆ **transportation improvements that anticipate future demand** and are **cost effective**
- ◆ **more bicycle and pedestrian options** across the entire region

HOWARD FRANKLAND BRIDGE PUBLIC HEARING

The dates and locations are as follows:

Tuesday, November 14
5:30 p.m. - 7:30 p.m.
Tampa Marriott Westshore
1001 N. Westshore Blvd.
Tampa, FL 33607

Thursday, November 16
5:30 p.m. - 7:30 p.m.
Hilton-St. Pete Carillon Park
950 Lake Carillon Drive
St. Petersburg, FL 33716

NEW DESIGN BENEFITS

The new design will improve incident management in emergency response situations, which addresses safety concerns raised by the community during our outreach process.

Hurricane evacuation plans can utilize all the lanes. In the aftermath of Hurricane Irma, this is particularly important for coastal Pinellas County, the most densely populated county in Florida.

The new design would provide improved operations of Express Bus Service and better accommodate the possibility of future transit.

The new design includes a bicycle/pedestrian trail, which accommodates requests from both the Hillsborough MPO and Forward Pinellas and reflects the increased emphasis the community has asked us to place on bicycle/pedestrian facilities.

In order to accommodate light rail in the future, we would not have to construct a third bridge as called for in the previous plan. We would only need to widen the existing southbound bridge and shift some of the travel lanes to the widened bridge, which would be more cost efficient and less impactful to the environment.

This new design would accommodate future demand at a much lower cost than adding lanes as part of future construction.

The additional express lane in each direction will better prepare the Howard Frankland Bridge for the potential of autonomous vehicles. Experts believe that initially autonomous vehicles (passenger and transit) may operate in dedicated lanes.

Additional information about the Howard Frankland Bridge Project is available at TampaBayNext.com.

FDOT will host local and regional opportunities to participate in developing meaningful transportation solutions.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. Persons who require special accommodations under the Americans with Disabilities Act to participate in this informational meeting, or persons who require translation services (free of charge) are asked to notify the agency at least seven (7) days prior to the meeting by contacting: Christopher Speese, Public Involvement Coordinator, at Christopher.Speese@dot.state.fl.us, 1 (800) 226-7220 or (813) 975-6405. The environmental review, consultation, and other actions required by applicable federal environmental laws for this project are being, or have been, carried out by the Florida Department of Transportation (FDOT) pursuant to 23 U.S.C. §327 and a Memorandum of Understanding dated December 14, 2016 and executed by the Federal Highway Administration and FDOT. If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1 (800) 955-8771 (TDD) or 1 (800) 955-8770 (Voice).

Comuníquese con nosotros: Nos importa mucho la opinión del público sobre el proyecto. Si tiene preguntas o comentarios, o simplemente desea más información, por favor comuníquese con nosotros. Nuestra representante en español es: Lilliam Escalera, (813) 975-6445, Lilliam.Escalera@dot.state.fl.us.

Howard Frankland Bridge

This Is What We Are Proposing To Build In 2020.

This Is How We Would Accommodate Rail In The Future.
