

# Alternate US 19 Corridor Studies Alternatives Workshop

from Park Street N. to the Pinellas/  
Pasco County Line

## Frequently Asked Questions

### What is the project schedule?

### How can I submit my comments?

1. By filling out a Comment Form today and placing it in one of the designated return boxes.
2. By taking a Comment Form home with me today and either emailing or mailing it back to Brian Shroyer. See contact information on the back side.
3. By visiting the Wikimapping tool at <http://www.fdotd7studies.com/altus19studies/public-involvement/virtual-comment-tool/>

### How will the improvements be funded?

Funding for the implementation of the improvements will come from federal, state, and local sources.

### When can I expect to see improvements start to be implemented?

This will depend on what concepts are proposed to move towards implementation. The FDOT will develop a plan which may include some short-term and long-term improvements. The timeline will differ for each project.

### Is right-of-way needed to construct these improvements?

Minimal right-of-way may be required for the implementation of some of the improvements. However, the amount of right-of-way needed has been minimized in the interest of reducing impacts to the surrounding areas. Right-of-way impacts will be further evaluated in design.
