

Guiding Principles

MATCH the Character

Match future street improvements to the activities and character of the surrounding context.

ENHANCE the Networks

Use existing and future development to enhance the transportation networks and promote connectivity in the various downtowns.

INCREASE Safety

Use roadway improvements to increase the level of safety for motorists, pedestrians, transit users, bicyclists, and freight haulers.

CELEBRATE the Unique Assets

Protect and integrate historic, cultural, and environmental elements found in the corridor in future plans and projects.

BALANCE User Needs

Create typical sections that balance the needs of all users and activities expected along the corridor.
